STAT MEMORANDUM FOR: [REDACTED]
Chief, Administrative Staff for the DS&T

STAT FROM: [REDACTED]
Chief, Administrative Staff, ICS

SUBJECT: DS&T Registry Commendation

Art:

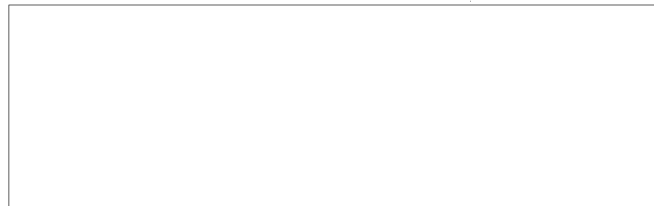

This memo is in recognition of the super job your DS&T Registry has been doing for the Intelligence Community Staff's COMIREX units located at Headquarters.

As you may recall, your registry support was obtained last December and was to continue until the COMIREX units were able to move to [REDACTED] a move then scheduled to take place only a few months hence. Unfortunately, as you are probably aware, [REDACTED] will not be ready for occupancy until this December or thereabouts, and we have been dependent on your support for the past 9 months.

STAT
STAT

All I can do at this point is say thanks for your help, ask for your forbearance, and recognize the fine professional service your registry personnel have been providing my COMIREX units. I have heard nothing but praise from COMIREX and my registry people about the DS&T Registry's performance, and COMIREX would have had a very hard time carrying out their critical operational tasks without a first-rate performance from the DS&T Registry. Please express to your registry personnel my appreciation, and that of COMIREX, for a job well done.
